Roe-Sturzenegger Wedding.

Last Sunday afternoon, at the residence of the bride's parents, Charles Roe and Miss Ada Sturzenegger were united in marriage, Rev. W. G. Blakely performing the ceremony. Everybody in Kingman, and in fact in the county, knows and likes Charley Roe, while Mrs. Roe is one of the most amiable and popular of the young ladies of Kingman. Their legion of friends wish them a long and happy married life.

Sunday evening the boys got out and serenaded the happy couple at their home on Beale street, and Charley and his bride responded by inviting the boys to partake of ice cream, cake and other good things.

Last week the Mohave & Milltown railroad was out of commission, the train having tipped over into the soft mud of the Colorado river. It took the greater part of the week to right the train, but now the road is running trains as usual. During the high water this piece of road was operated under great difficulties, freight having to be ferried a distance of seven miles from Needles. The Colorado river has resumed its normal stage and the ferriage of freight is less difficult. The road is doing a good business.

Major and Mrs. W. A. Mensch celebrated the twenty fifth anniversary of their marriage at their home in Kingman, last Saturday evening. During the evening the happy couple received many calls and the guests were entertained with music and song, after which refreshments were served. The presents received were numerous, hand some and costly. The Major and his good wife were the recipients of many congratulatory telegrams and letters from their friends all over the country.

The road leading from the summit of Stockton Hill to the apex of the mountain has been completed and is one of the finest grades in the county. P. McCordell made the original survey of the road and it was on his lines that the road was built. Wagons can now go by way of this road to the hog back above the Alpha and Nighthawk mines in the Layne Springs section.

Henry Lovin's big water tower was raised yesterday. It will be one of the highest towers in town, and will contain two twenty-thousand gallon tanks. Water can be thrown from the upper tank over the Elk building. With fire plugs around town this water system will be of great benefit in case of fire.

The Misses Anna DuSole and Ana Shaw, principal and assistant principal nurses, respectively, in the Deaconess hospital, Los Angeles, visited with Mr. and Mrs. F. W. Morrison, in Kingman, this week. The young ladies are returning from a visit to relatives in Kentucky.

M. L. Hoffman, who has been enjoying the sea breezes at Pacific ocean watering places, in southern California, the past month, arrived in Kingman yesterday and departed to his home in Chloride to day.

A large force of Lantry & Sharp masons are at work in the canyon south of Kingman building granitoid culverts to carry off the flood waters from the west side of the railroad grade.

William Cornwall, one of the prosperous ranchers on the Big Sandy, departed a few days ago to Portland, where he will visit the fair and later go on to his old home in Oregon.

County Recorder Thomas McNeely and wife paid a visit to Mineral Park last Saturday and Sunday. They went as far as the Argo mine, situated on the summit of Sherum's Peak.

Tom Lake, who was injured in a cave in the St. Louis mine last week, is getting along nicely, although it will be a week or two before he is again able to go to work.

A. Cornwall, accompanied by his daughter Irene, was in Kingman a few days ago from his home on the Big Sandy.

Sheriff Walter Brown has been in Flagstaff this week on official business.

William Bohne Dead.

A telegram received by Judge Russell Thursday afternoon, from Los Angeles, conveyed the information that William Bohne had died at the California hospital. Mr. Bohne came in from his mine a week ago at Tuesday suffering from what he thought was neuralgia, but which Dr. Cowie ascertained to be screw worms in his head. The doctor removed fully one hundred of the worms, but there were still more in the unfortunate man's head and it was deemed advisable to take him to Los Angeles, where he would have the benefit of able surgeons. Apparently he obtained no relief and gradually failed until Thursday afternoon, when the end came. His sufferings during the week were awful and death came as a relief.

William Bohne was one of the best known miners in the county, having lived here about fifteen years. He owned valuable mining property in the Layne Springs section. Deceased was born forty-six years ago in Germany. The remains will be buried in Los Angeles, his partner and friend, George Klemp, having been called to Los Angeles to look after the funeral arrangement.

Desert Sign Posts.

California and Nevada are awaking to the necessity of putting up sign posts in the deserts. Arizona has had a law requiring the boards of supervisors to place sign posts at every cross-road directing the traveller to water and giving the distance, together with the distance to the next town. Sign posts on the desert may save lives, especially if well placed. Only a few days ago three men perished on the desert in the Furnace Creek country, Nevada, after travelling many miles. Had sign posts been established in that section the chances are that they would have run across one and been saved from an awful death. Let sign posts be set all over the desert where ever danger to the traveller exists.

Edward Murdock, who has been visiting with relatives in Kingman the past two months, departed to his home in Chicago last Wednesday. Mr. Murdock was adopted by an uncle when a small boy and his brother and sister, James A. Smith and Mrs. J. N. Wilson, lost track of him until quite recently.

The Indian baseball nine of Fort Mohave, which played here on the Fourth, is out with a deft. The captain writes Geo. Bonelli: "Tell your baseball captain to write us when they will play and we will come up. We had a funeral last time but are feeling better now." Grind up your bats, boys.

Thursday last a couple applied to Probate Judge Metcalfe for a license to wed. The man was a caucasian and the woman was a dark-bued descendant of Ham. The judge refused to issue a permit and the couple departed east in the hope of finding a judge who would not draw the color line.

J. P. Finegan went out to Chloride Wednesday last and is busily engaged in taking inventory of stock preparatory to turning over the mercantile business, in which he and Conkey and Kridler are interested, to Charles Sangster.

The following letters remain uncalled for at the Kingman postoffice: Miss Stella Lufkin, John Ryan, Francisco Alcoser.

Miss Nina Uncapher, of Mineral Park, visited friends in Kingman Thursday and Friday this week.

Henry Lovin is laid up at his home on Beale street with rheumatism.

The Denver Post has been sued for \$30,000, the Denver Times for 20,000, and the Denver Republican for 10,000 damages because they published a story that a certain woman had passed a forged 10\$ bill. The story was printed in good faith and upon information received from United States secret service officials. And still there are people who are not satisfied because the newspapers do not print all they know.

Indigestion.

With its companions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, indigestion, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles 50c. bottle. Sold by H. H. Watkins.

One of the remarkable developments in Mexican real estate, within the last two or three years, is the great rise in value of arid lands. Tracts that have no water and were practically without value six or seven years ago, have within the last two years become valuable. This is the result of the exploitation of the lechugilla, a variety of the aloe, which produces the fibre known as ixtle, and the discovery of the fact that the guayule bush, somewhat resembling sagebrush, and that grows on dry plains, can be made to produce rubber in commercial quantities. Furthermore, that variety of the cactus known as the nopal which is also a native of arid plains, has been found to be an excellent fodder, and by the simple process of singeing the thorns on its large leaves, can be made available for stock. There is at present quite a boom in desert land, and as it has its foundation in the great demand all the world over for rubber and fiber, the rise in value will be permanent.—Modern Mexico.

The Vanita mine, in the Yellowstone district, will soon be one of the active producers of Cochise county, says the Benson Press. Its machinery, received Monday, will soon be extracting the values from the rich ores which the mine has proven to contain from extensive development work. The machinery is thoroughly up to date, and was purchased with a view to the future, the reserve power being sufficient to operate two batteries of stamps. The hoist will permit operating the mine to 1000 feet in depth.

Baseball Players and Foot Racers!

Louis J. Kruger, ex champion long distance foot racer of Germany and Holland, writes, Oct. 27th, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, \$1.00 bottle. Sold by H. H. Watkins.

We receive fresh vegetables daily from the Rosenberg ranch, on the Colorado river. None better were ever brought to the Kingman market.

TARR & McCOMB (INC.)

SUMMONS.

In the District Court of the Fourth Judicial District, Territory of Arizona, in and for Mohave County.

AL James, plaintiff,
 vs.
 Levi Smith, C. M. Butler, Mrs. Jane Harris, whose christian name is unknown, widow and heir of Ed. Harris, deceased, and the unknown heirs of Ed. Harris, deceased; John H. Wilson, C. J. Rhodes, Jerome Tracey, Joe Morris, W. A. Brooks, J. H. Knight, R. J. Holmes, and the Gaddis & Perry Company, defendants.

Action brought in the District Court of the Fourth Judicial District of the Territory of Arizona, in and for the County of Mohave, and the complaint filed in said County of Mohave, in the office of the Clerk of said District Court. In the name of the Territory of Arizona to Levi Smith, C. M. Butler, Mrs. Jane Harris, whose christian name is unknown, widow and heir of Ed. Harris, deceased, and the unknown heirs of Ed. Harris, deceased; John H. Wilson, C. J. Rhodes, Jerome Tracey, Joe Morris, W. A. Brooks, J. H. Knight, R. J. Holmes, and the Gaddis & Perry Company, defendants, greeting:

You are hereby summoned and required to appear in an action brought against you by the above named plaintiff in the District Court of the Fourth Judicial District of the Territory of Arizona, in and for Mohave County, and answer the complaint therein filed with the Clerk of this said Court, at Kingman, in said County, within twenty days after the service upon you of this summons, if served in this said County, or in all other cases within thirty days thereafter, the times above mentioned being exclusive of the day of service, or judgment by default will be taken against you.

Given under my hand and the seal of the District Court of the Fourth Judicial District, Territory of Arizona, in and for the County of Mohave, this 10th day of July, 1905.
 (Seal) ROSS H. BLAKELY,
 Clerk of said District Court.
 First publication July 15, 1905.
 Last publication August 12.

Greely Clack this week shipped to Kansas City a carload of horses from his range in the Wallapai valley.

Miss Minnie Sawyer, of this office, departed to Los Angeles, where her relatives reside, last Saturday evening. She will be gone about ten days.

Lovin & Withers have just opened up one of the largest lines of men's furnishing goods ever brought to Mohave county. The counters and shelves of the big store are crowded to overflowing and everybody should take a look at the display and make their purchases while goods are new and fresh.
